When you select a course you would like to complete, there may be an element that requires face-to-face interaction either in person or via zoom.
You can select which session you would like to attend from the options presented within the course you have selected.

There are some courses that only require online tests.
To get 100%, each slide within the online education module must have a green tick

The [Learning Centre](#) updates Rugby Xplorer during the early hours of each morning, so your accreditation will not appear in Rugby Xplorer until the day after completion.

Smart Rugby is mandatory for all coaches and referees across Australia, therefore you cannot referee a game without smart rugby.

Accreditations (excluding smart rugby) are separate to appointments and are the responsibility of individuals if you want to progress.
